

The Ecologist

INDEX

Vol. 15

1985

INDEX OF AUTHORS

- Abram, David: The Perceptual Implications of Gaia 2: 96-103
- Adams, Patricia: The World Bank: A Law unto itself 5/6: 220-221
- Agarwal, Anil: Deforestation means an end to India's Traditional Crafts 1/2: 49
- Ahmed, Mohiuddin: Poverty, Food and Aid Politics in Bangladesh 5/6: 261-262
- Banerjee, Sumanat and Smitu Kothari: A General Profile of Food and Hunger in India 5/6: 257-260
- Botafofo, Jose G: Development and Environment: A Reply to *The Ecologist* 5/6: 207-210
- Bunyard, Peter: World Climate and Tropical Forest Destruction 3: 125-136
- Clark, Donald J: Environmentalism and the Japanese Cultural Tradition 4: 158-160
- Colchester, Marcus: The World Bank ignores Human Suffering and is in Breach of International Law 5/6: 286-290
- Dogra, Bharat: Forcing the Starving to Export their Food 1/2: 42-43
The World Bank *vs* the People of Bastar 1/2: 44-48
India's White Revolution—the Reality: Another World Bank Financed Disaster 4: 149-157
- Drucker, Charles: Dam the Chico: Hydropower Development and Tribal Resistance 4: 149-157
- Fearnside, Philip M and Gabrielle di Lima, Ferreira: Amazonian Forest Reserves: Fact or Fiction? 5/6: 257-299
- F.A.O. "A Bonanza to Small Farmers" India's White Revolution—the Rhetoric 4: 182 (see in conjunction with Bharat Dogra article above)
- Goldsmith, Edward: Open letter to Mr Clausen, President of the World Bank (editorial) 1/2: 4-8
Questioning Scientific Progress (review article) 1/2: 82-84
Whatever Happened to Ecology? (editorial) 3: 90-91
Ecological Succession Rehabilitated 3: 104-112
Worshipping at the Altar of Economic Pragmatism (editorial) 4: 146-148
Edouard Kressmann (obituary) 5/6: 202
Is Development the Solution or the Problem? (an answer to J. Botafofo) 5/6: 210-219
- Goodland, Robert: The World Bank Defends its Position 5/6: 291-292
- Hayter, Teresa and Catharine Watson: The World Bank's Agricultural Policies—Rhetoric or Reality? 5/6: 222-231
- Heckstra, G.P: Development Policies ignore Ecological Constraints 5/6: 240-245
- Holt, Sidney: Let's all go Whaling 3: 113-124
- Hughes, Charles J: Gaia: A Natural Scientist's Ethic for the Future 3: 92-94
- Jackson, Peter: Dr Nart Tuntawiroon (obituary) 1/2: 2-3
- Jayal, N.D: Destruction of Water Resources 1/2: 21-26
- Kalpavriksh (The Environmental Action Group and Hindu College Nature Club): The Narmada Valley project—Development or Destruction? 5/6: 269-285
- Kaur, Narinda: Food Production in a Developing Country. The Malayan Experience 5/6: 263-265
- Keeble, Brian: When Art and Work were One. The Sanctity of Real Work as seen by Eric Gill and His Predecessors 4: 165-176

- Kent, George: Food Trade: The Poor feed the Rich 5/6: 232-239
- Kothari, Ashish: A New Bottle for the same Old Wine: An Answer to the World Bank 5/6: 293-296
- Kothari, Smitu *see* Sumanat Banerjee
- Linear, Marcus: The Tsetse War 1/2: 27-35
- Lovelock, James: Are we Destabilising World Climate? The Lessons of Geophisiology 1/2: 52-55
- Jim Lovelock Replies (to Charles Hughes *qv*) 1/2: 95
- Lutzenberger, Jose: The World Bank's Polonoroeste Project—a Social and Environmental Catastrophe 1/2: 69-72
- Madeley, John: Does Economic Development Feed People? 1/2: 36-41
- Price, David: The World Bank vs Native Peoples—A Consultant's View 1/2: 73-75
- Pushparajah, E: Development and Induced Soil Erosion and Flash Floods in Malaysia 1/2: 19-20
- Rich, Bruce M: Multi-lateral Development Banks. Their Role in destroying the Global Environment 1/2: 56-68
- Rupasinghe, Kumar: The Effects of Export-Oriented Industrialisation in Sri Lanka 5/6: 246-256
- Sears, John: A Reprieve for Ennerdale 4: 177-181
- Sivaraksa, Sulak: Rural Poverty and Development in Thailand, Indonesia and the Philippines 5/6: 266-268
- Survival International: Indonesian Transmigration: The Most Irresponsible project the World Bank has ever Funded 5/6: 300-302
- Sweeny, Sedley: A Glimpse of India 4: 187-188
- Timberlake, Lloyd *see* Anders Wijkman
- Tuntawiroon, Dr Nart: The Environmental Impact of Industrialisation in Thailand 4: 161-164
- Vohra, B.B: Why India's Forests have been cut down 1/2: 50-51
- Walters, A.H: Nitrates in Food. Another Government Cover-Up 4: 189-194
- Watson, Catharine *see* Teresa Hayter
- Wijesinhar, Sanjiva: The Grassroots Approach to Malarial Control in Sri Lanka (report) 3: 137-138
- Wijkman, Anders and Lloyd Timberlake: Is the African Drought an Act of God or Man? 1/2: 9-18

SUBJECT INDEX

- Acid Rain—cause and effects 3: 134-135
- Africa—droughts caused by mismanagement in Ethiopia; the Sahel; Sudan; Mozambique; Zimbabwe 1/2: 9-18
- tsetse fly eradication project 1/2: 27-35
- drought in Uganda and Tanzania 1/2: 36-41
- cash crops *vs* food in sub-Saharan region 5/6: 208
- fish products exported from Senegal 5/6: 234-235
- Agriculture—irresponsibility of FAO policies 1/2: 8
- mismanagement a cause of drought in Africa 1/2: 9-18
- tsetse fly eradication could lead to overstocking 1/2: 27-35
- adverse effects of MDB policies 1/2: 57-59
- abundance of harvest from Igarot rice terraces 4: 151
- milk production in India 4: 183-186
- hybrid cattle a mistake in India 4: 185
- terraces and other traditional practices eroded in Himalayan villages 4: 187-188
- CAP a juggernaut 4: 191
- World Bank policies cause disasters 5/6: 222-228
- under pressure in Senegal 5/6: 234
- and the export of food crops 5/6: 232-239
- promotion zones in Sri Lanka 5/6: 251-256
- modern technology leads to hunger in India 5/6: 257-260
- and aid politics in Bangladesh 5/6: 261-265
- depletion of resources in Southeast Asia 5/6: 266-269
- effects of Narmada Valley Project 5/6: 274-285
- Aid—policies in deforestation 1/2: 42-48
- benefits the rich at the expense of the poor 5/6: 222-230
- enormous in Sri Lanka's Mahaweli Project 5/6: 246-260
- undermines local economy in Bangladesh 5/6: 261-262
- a disaster in Southeast Asia 5/6: 266-268
- Amazonia—*see* also Polonoroeste Project
- rainforests threatened by World Bank policies 1/2: 58-60
- named reserves of forest do not exist 5/6: 297-299
- road building plans threaten Rondonia's Indian Reserves 5/6: 297-299
- Art—central to man's well-being 4: 165-176
- Bangladesh—transport and industry disrupted by floods 1/2: 17
- suffering from aid politics 5/6: 261-262
- Bastar—a forest economy destroyed by World Bank policies 1/2: 44-48
- Brazil *see* Amazonia and Polonoroeste Project
- Brandt report—5/6: 243-245
- Carlyle, Thomas—4: 169-170

Cattle—projects financed by MDBs in Central America 1/2: 57-59
 —tsetse fly eradication would cause overstocking in Africa 1/2: 27-35
 hybrids less successful than indigenous breeds in India 4: 185

Chico Dam—hydropower development meets tribal resistance 4: 149-157
 —arguments in favour are based on political considerations 4: 152-153
 —and the National People's Army 4: 154

Climate—affected by human interaction 1/2: 52-55
 —and destruction of tropical forests 3: 125-136
 —regulated by Gaia 3: 130-131
 —changes, a cause of acid rain 3: 134-135

Cobbett, William—4: 168-169

Colombia—land reform and World Bank loans 5/6: 226-231

Consumerism—a form of modern slavery 4: 175

Craft Guild Community, Ditchling (1910-1924) 4: 165

Dams—Nam Choan—opposed by Dr Tuntawiroon 1/2: 2
 —Chico (Philippines) 4: 149-157
 —Kwae Yai (Thailand) 4: 163
 —Mahaweli Project (Sri Lanka) 4: 249-252
 —Narmada Sagar Valley Project 5/6: 269-285
 —World Bank defends Narmada Scheme 5/6: 291-296

Deforestation—the Polonoroeste Project 1/2: 6; 69-72; 4: 146-147; 5/6: 209; 297-298
 —cause of drought in Africa 1/2: 9-18
 —in Eastern Asia 1/2: 22
 —for cash crops in India 1/2: 23
 —leads to climatic changes 3: 125-136

Desertification—result of human interference with natural cycles 5/6: 242-243

Development—as a cause of ecological catastrophe 5/6: 210-219
 —World Bank policies ignore ecological constraints 5/6: 240-245

Drought—man induced 1/2: 9-18
 —in the Sahel; Ethiopia; Sudan; Mozambique; Zimbabwe; Latin America; India 1/2: 9-18
 —man induced in US and USSR 1/2: 14-15
 —in Eastern Asia 1/2: 22-26
 —in Uganda and Tanzania 1/2: 36-41

Earthquakes—in Thailand 1/2: 3
 —cause less damage than erosion in the Caribbean 1/2: 9

Ecology—true meaning perverted by modern science 3: 90-91
 —Eugene Odum, a great ecologist 3: 91; 109-110
 —principle of ecological succession 3: 104-112
 —constraints ignored by developers 5/6: 240-245

Economic development—a disaster in the Third World 1/2: 5; 36-41
 —leads to agricultural exports in Africa 1/2: 43

Electricity—from multi-purpose dams in the Philippines 4: 154-156

Ennerdale—*vs* NWAA (North West Water Authority)—a lake reprieved 4: 177-181

Environment—wantonly destroyed by World Bank policies 1/2: 6

—World Bank accuses the 'poor' of destroying it 1/2: 7; 5/6: 212
 —concern in Japan 4: 158-160
 —suffers from industrialisation in Thailand 4: 161-164
 —degradation in New Zealand 5/6: 213
 —devastation caused by Narmada Valley Project 5/6: 209-285

Erosion—*see* Soil erosion

Ethiopia—food exported during famine 1/2: 10-18

Export Oriented Industry (EOI) a disaster in Sri Lanka 5/6: 246-256
 —processing zones erode production advantages in Third World 5/6: 247

Famine—not an Act of God 1/2: 9-18; 36
 —extraordinary statistics 1/2: 17
 —food exported from famine areas 1/2: 42-43

FAO (Food and Agriculture Organisation)—tsetse fly operation 1/2: 27-35
 —irresponsible planning for agricultural development 1/2: 8; 36-40
 —'Operation Flood' in India 4: 182
 —and World Bank policies 5/6: 222-228

Fertilisers—*see* also Nitrates—comparison of chemicals and farmyard manure 4: 192-195

Fish—the Ennerdale char 4: 179
 —staple in many poor countries now exported 5/6: 234-235
 —imported for pet food into USA 5/6: 234

Floods—in Thailand 1/2: 2
 —and famine 1/2: 9-18
 —and soil erosion in Malaysia 1/2: 19

Food—exported by Third World countries 1/2: 5
 —exported throughout the famine from Ethiopia 1/2: 16
 —starving forced to sell to rich 1/2: 42-43
 —milk production in India 4: 183-186
 —cash crops *vs* food crops in sub Saharan Africa 5/6: 208
 —grain, meat and fish exported from poor countries 5/6: 232
 —Japan, a net importer 5/6: 238
 —only 1/5 grain in international trade goes to Third World 5/6: 233
 —animal protein, net flow from poor to rich 5/6: 233
 —fish exported from Senegal, Thailand, Sahel 5/6: 234-235
 —growing more does not improve nutritional standards 5/6: 237
 —MOIRA—computation of maximum World food production 5/6: 246
 —production increases in India do not benefit poor 5/6: 257-260
 —annual food gap in Bangladesh two million tons 5/6: 261-262
 —quality deterioration in Malaysia 5/6: 263-265

Forests—*see* also Rainforest—political reasons for depletion in India 1/2: 50-52
 —World Bank's 'Social Forestry Programme' 5/6: 216
 —under threat in Narmada Valley Project 5/6: 274-285

Free Trade Zone—performance causes ruin in Sri Lanka 5/6: 250

FUNAI—Brazil's National Indian Foundation
 —relations with World Bank 1/2: 73-76

- Gaia—as regulator of climate 1/2: 52-55; 3: 130-131
- Lovelock's hypothesis evaluated 3: 92-94
 - Lovelock replies to C.J. Hughes 3: 95
 - perceptual implication 3: 96-103
 - Phenomenology of Perception* and other writing by J.J. Gibson and Merleau Ponty 3: 99
 - Daisy World model 3: 132
- Gill, Eric—philosopher and craftsman 4: 165-176
- influenced by William Cobbett; Thomas Carlyle; John Ruskin; William Morris and others 4: 168-173
- Haiti—deforestation leads to catastrophic erosion 1/2: 10
- Health—at risk from nitrates 4: 189-194
- views of MAFF spokesman 4: 194
- Hydroelectric power *see also* Dams—cannot be multi-purpose in Thailand 1/2: 2
- schemes funded by World Bank 1/2: 62
 - prospects and failures in Philippines 4: 149-156
- International Whaling Commission 3: 113-124
- record 1946-1985, 114; policy in 1970, 115; scientific argument, 116-117; moratorium accepted by scientists, 117; Indian Ocean as whale sanctuary 1979, 121; WCS calls for moratorium 1982, 121.
- India—causes and effects of drought 1/2: 13-14
- Bastar: a forest economy destroyed by World Bank policies 1/2: 44-48
 - 'Operation Flood' another World Bank disaster 4: 182-186
 - milk production 4: 183-186
 - indigenous breeds better than hybrid cattle 4: 185
 - Tibetan refugees in Himalayan districts 4: 187-188
 - World Bank policies mean less food for own people 5/6: 257-265
 - GOI (Government of India) official note on environmental capacity of Narmada Valley Scheme 5/6: 291-292
- Indonesia—World Bank financial programme is ecological debacle 1/2: 59
- development leads to poverty 5/6: 266-268
 - transmigration a scandalous World Bank policy 5/6: 300-301
- Industrialisation—environmental impact in Thailand 4: 161-164
- export-oriented in Sri Lanka 5/6: 246-256
- Irrigation—*see* Dams
- Japan—the environmental alternative 4: 158-160
- antagonism of Thai people 4: 162-164
- Kalpavriksh—Environmental Action Group. Delhi—*see* Narmada Valley Project
- Kwae Yai Dam—financed by World Bank and Japan's Overseas Economic Fund 4: 163
- Kressmann, Edouard—Obituary 5/6: 202
- Latin-America—causes and effects of drought 1/2: 13
- Lockayan—self-help group in India 1/2: 39
- MAFF—spokesman on the health of the individual 4: 194
- Mahaweli Project *see* Sri Lanka
- Malaria—methods of control in Sri Lanka 3: 137-138
- Malaysia—induced floods result from soil erosion 1/2: 19-20
- sea food products exported 5/6: 235
 - deterioration of food quality 5/6: 263-265
- Marcos, President—indifferent to tribesmen's petition on Chico scheme 4: 147-148
- MOIRA (Model of International Relations and Agriculture Computation of maximum world food production) 5/6: 246
- Morris, William 3: 170-172
- Mosquitos—resistant to DDT and malathion 3: 137-138
- Mozambique—drought causes destabilisation 1/2: 11
- Multi Lateral Development Banks (MDBs) *see* World Bank
- Narmada Valley Project—financed by World Bank 1/2: 6
- threat to agriculture, forests, people and culture 5/6: 269-285
 - protests 5/6: 281
 - Benefit/cost analysis 5/6: 283
 - suspended 5/6: 285
 - note on environmental aspect from World Bank 5/6: 293-296
 - World Bank case refuted 5/6: 293-296
- New Zealand—environmental destruction and loss of resources 5/6: 213
- Nitrates—dangers to health ignored by UK Government 4: 189-194
- Odum, Eugene—a great ecologist 3: 108-110
- Paper mill—in Madhya Pradesh 5/6: 273
- Papua New Guinea—food exports and malnutrition 5/6: 236-237
- Pesticide production—financed by MDBs 1/2: 61-62
- Philippines—deforestation causes drought, erosion and floods 1/2: 10
- Chico Dam Project 4: 147; 149-157
 - exports seafood products 5/6: 235
 - rural poverty and development 5/6: 266-268
- Philosophy—the perennial philosophy of Eric Gill 4: 165-176
- Pollution—of water systems 1/2: 21-26
- Polonoeste Project—financed by World Bank 1/2: 6; 69-72
- World Bank suspends funding 4: 146-147
 - forest reserves a myth 5/6: 297-298
- Population—forecasts and food shortages 1/2: 4
- control—World Bank view 5/6: 217-218
 - present constraints 5/6: 244
- Poverty—resulting from Western expansion 5/6: 243
- Rainforests—of Rondonia being taken away from peasants 1/2: 69-72
- destruction is altering worldwide environments 3: 125-136
 - ecology 3: 126-127
 - vulnerability of tropical soils 3: 127
 - climate and water balance 3: 128-129

- importance in balancing atmospheric gases 3: 131-134
- so-called 'reserves' in Amazonia don't exist 5/6: 297-299
- Resettlement—tragedies follow Narmada programme 5/6: 278-279
- Roman Catholicism—central to Eric Gill's philosophy 4: 165-176
- Rondonia *see* Amazonia; Polonoroeste project; rainforests
- Ruskin, John 4: 170-172
- Sahel—causes and effects of drought 1/2: 10-13
- Self-help groups—in Sri Lanka; Tanzania; India and Latin America 1/2: 37-40
- Senegal—fish processed for export while people starve 5/6: 234
- Soil erosion 1/2: 19-20
- Sri Lanka—self-help groups 1/2: 37-40
 - malaria control 3: 137-138
 - World Bank promotes export oriented industrialisation 5/6: 246-256
 - model welfare systems dismantled 5/6: 248-253
 - Mahaweli project 5/6: 249-256
 - Free Trade Zone 5/6: 250
 - agriculture 5/6: 251-256
- Tanzania—village populations benefit from weak economy 1/2: 37
 - womens groups organise self-help food schemes 1/2: 37-40
- Thailand—Tung Yai national park 1/2: 3
 - environmental impact of industrialisation 4: 161-164
 - National Environment Board—a paper tiger 4: 162
 - Kwae Yai Dam project 4: 163
 - exports seafood products 5/6: 235
 - poverty and development 5/6: 266-268
- Third World—economics 1/2: 5
 - suffering caused by World Bank policies 1/2: 56-68
 - catalogue of catastrophic development programmes 5/6: 210
 - net exporter of food to rich nations 5/6: 232-238
- Tibet—refugees in N. India 4: 187-188
- Traditional lifestyles—destroyed by development programmes 1/2: 5
 - crafts in India threatened by deforestation 1/2: 49
- Transmigration—promoted by World Bank in Amazonia 1/2: 71
 - causes tragedy in Indonesia 5/6: 300-301
- Tropical forests—*see* Rainforests
- Trypanosomiasis *see* tsetse fly
- Tsetse Fly—environmental consequences of spraying 1/2: 27-35
 - if eradicated will cause overstocking 1/2: 31
- Tuntawiroon, Dr Nart—Obituary 1/2: 2-3
- USA—induced droughts 1/2: 14-15
 - exports do not help Third World 5/6: 232
 - a net importer of meat 5/6: 233
 - tuna fish imported from Third World as pet food 5/6: 234
- USSR—man-made droughts 1/2: 14

Vegetables—and nitrate uptake 4: 193

- Water Resources—diminishing as a result of development 1/2: 21-26
 - schemes financed by MDBs 1/2: 62
 - Ennerdale—a lake reprieved 4: 177-181
 - UN Water Conference 1977 5/6: 215
 - pollution in India 5/6: 259
- Water weeds—importance in lake ecosystems 4: 179
- Whales *see* International Whaling Commission
- Wildlife—under threat in Narmada Valley Scheme 5/6: 276
- Work—*A Holy Tradition of Working* Eric Gill 4: 165-176
- World Bank—Special double issue 1/2
 - Open Letter from Goldsmith 1/2: 4-8
 - and world overpopulation 1/2: 4
 - and Third World economics 1/2: 4
 - vs* traditional lifestyles 1/2: 5
 - and food exports 1/2: 5
 - and Third World debts 1/2: 6
 - and the environment 1/2: 6
 - policies cause devastation in Bastar 1/2: 44-48
 - role with other MDBs in destroying global environment 1/2: 56-68
 - relationship with FUNAI 1/2: 73-76
 - Polonoroeste Project 1/2: 6; 69-72; 4: 146-148
 - letters to President Clausen of the World Bank from Bruce Rich and others 1/2: 78-81
 - reply to above 1/2: 80
 - failure of Operation Flood in India 4: 183-186
 - correspondence with *The Ecologist* and others 5/6: 203; 205-210; 291-296
 - development policy attacked by Goldsmith 5/6: 210-219
 - social forestry policy 5/6: 216
 - agricultural policies 5/6: 222-228
 - loans for livestock in S. America 5/6: 223
 - failure of colonisation schemes in Colombia 5/6: 226-231
 - policies lead to disaster in Sri-Lanka 5/6: 246-256
 - Narmada Valley Project 5/6: 269-285
 - ignores human suffering 5/6: 286-290
 - in breach of International Law 5/6: 286-290
 - answers criticisms of Narmada Valley Scheme 5/6: 291-296
 - dishonest about forest reserves 5/6: 297-299
 - shame of Indonesian transmigration 5/6: 300-301
- World Conservation Strategy—5/6: 243-245
- Zimbabwe—tribal lands over cultivated 1/2: 11
 - drought 1/2: 9-18

LIST OF CORRESPONDENCE on the subject of The World Bank

- Edward Goldsmith to President of the World Bank 1/2: 4; 5/6: 203
- Bruce M Rich and 45 others to President of the World Bank 1/2: 78-80
- Roberto G. Cofino on behalf of the President to Bruce Rich 1/2: 80
- Robert O Blake to the President 1/2: 80

The Office of the Prime Minister to *The Ecologist* 5/6: 203
 Mr Timothy Raison, Minister for Overseas Development to *The Ecologist* 5/6: 204
The Ecologist replies to Mr Raison 5/6: 205
 Dr L. Mediwake to Edward Goldsmith comments on Mr Raison's letter 5/6: 205
 Jose Botafogo G. for the World Bank 5/6: 207-210
 Edward Goldsmith responds to Jose Botafogo 5/6: 210-219
 Robert Goodland on behalf of the World Bank with reference to the Narmada Valley Project to Edward Goldsmith 5/6: 291
 Ashish Kothari replies to Robert Goodland 5/6: 293-296

THE WORLDWATCH PAPER SERIES

Published by the Worldwatch Institute, Washington, DC, the Papers contain the results of the Institute's research projects, aiming to alert decision makers and the general public to emerging global trends in the availability and management of resources as well as providing up-to-date information in today's rapidly changing, interdependent world. Already the Papers are used by government officials, journalists, economists, business leaders, development specialists, environmentalists, professors and students in 122 countries.

1. The Other Energy Crisis: Firewood.
2. The Politics and Responsibility of the North American Breadbasket.
3. Women in Politics: A Global Review.
4. Energy: The Case for Conservation.
5. Twenty-two Dimensions of the Population Problem.
6. Nuclear Power: The Fifth Horseman.
7. The Unfinished Assignment: Equal Education for Women.
8. World Population Trends: Signs of Hope, Signs of Stress.
9. The Two Faces of Malnutrition.
10. Health: The Family Planning Factor.
11. Energy: The Solar Prospect.
12. Filling the Family Planning Gap.
13. Spreading Deserts—The Hand of Man.
14. Redefining National Security.
15. Energy for Development: Third World Options.
16. Women and Population Growth: Choice Beyond Childbearing.
17. Local Responses to Global Problems: A Key to Meeting Basic Human Needs.
18. Cutting Tobacco's Toll.
19. The Solar Energy Timetable.
20. The Global Economic Prospect: New Sources of Economic Stress.
21. Soft Technologies, Hard Choices.
22. Disappearing Species: The Social Challenge.
23. Repairs, Reuse, Recycling—First Steps Toward a Sustainable Society.
24. The Worldwide Loss of Cropland.
25. Worker Participation—Productivity and the Quality of Work Life.
26. Planting for the Future: Forestry for Human Needs.
27. Pollution: The Neglected Dimensions.
28. Global Employment and Economic Justice: The Policy Challenge.
29. Resource Trends and Population Policy: A Time for Reassessment.
30. The Dispossessed of the Earth: Land Reform and Sustainable Development.
31. Knowledge and Power: The Global Research and Development Budget.
32. The Future of the Automobile in an Oil-Short World.
33. International Migration: The Search for Work.
34. Inflation: The Rising Cost of Living on a Small Planet.
35. Food or Fuel: New Competition for the World's Cropland.
36. The Future of Synthetic Materials: The Petroleum Connection.
37. Women, Men, and the Division of Labor.
38. City Limits: Emerging Constraints on Urban Growth.
39. Microelectronics at Work: Productivity and Jobs in the World Economy.
40. Energy and Architecture: The Solar and Conservation Potential.
41. Men and Family Planning.
42. Wood: An Ancient Fuel with a New Future.
43. Refugees: The New International Politics of Displacement.
44. Rivers of Energy: Harnessing the Hydropower Potential.
45. Wind Energy: A Turning Point.
46. Global Housing Prospects: The Resource Constraints.
47. Infant Mortality and the Health of Societies.
48. Six Steps to a Sustainable Society.
49. Productivity: The New Economic Context.
50. Space: The High Frontier in Perspective.
51. U.S. and Soviet Agriculture: The Shifting Balance of Power.
52. Electricity from Sunlight: The Future of Photovoltaics.
53. Population Policies for a New Economic Era.
54. Promoting Population Stabilization: Incentives for Small Families.
55. Whole-Earth Security: A Geopolitics of Peace.
56. Materials Recycling: The Virtue of Necessity.
57. Nuclear Power: The Market Test.
58. Air Pollution, Acid Rain and the Future of Forests.
59. Improving World Health: A Least Cost Strategy.
60. Soil Erosion: Quiet Crisis in the World Economy.
61. Electricity's Future: The Shift to Efficiency and Small-scale Power.
62. Water: Rethinking Management in an Age of Scarcity.
63. Energy Productivity: Key to Environmental Protection and Economic Progress.
64. Investing in Children.
65. Reversing Africa's Decline.
66. World Oil: Coping with the Dangers of Success.
67. Conserving Water: The Untapped Alternative.

Worldwatch Papers are £2.00 per copy and available from
Ecosystems Limited, Worthyvale Manor Farm, Camelford,
Cornwall PL32 9TT, U.K.

The Ecologist

The World Bank
Global Warming of Tropical Forests and People

£4.00

including: *Edward Goldsmith, Open letter to Mr Clausen, President of the World Bank, Lloyd Timberlake, Is the African Drought an Act of God or of Man? Marcus Linear, The Tsetse War, John Madeley, Does Economic Development feed people? James Lovelock, Are we destabilising World Climate? Bruce M. Rich, Multilateral Development Banks, Jose Lutzenberger, The World Bank's Polonoroeste Project, David Price, The World Bank vs Native Peoples, and many more articles.*

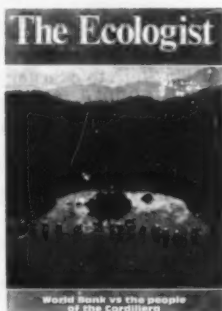

£4.00

including: *Patricia Adams, The World Bank: A Law unto Itself. Teresa Hayter and Catherine Watson, The World Bank's Agricultural Policies. George Kent, Food Trade: The Poor feed the Rich. G.P. Hekstra Development Policies ignore Ecological Constraints. Kumar Rupasinghe The Effects of Export-oriented Industrialisation in Sri Lanka. The Narmada Valley Project, including a letter from the World Bank defending its position.*

including: *Charles Drucker, Dam the Chico, Donald J. Clark, Environmentalism and the Japanese Cultural Tradition, Nart Tuntawiroon, Environmental Impact of Industrialisation in Thailand, Brian Keeble, When Art and Work were One, Bharat Dogra, India's White Revolution, A. H. Walters, Nitrates in Food.*

£2.00

World Bank vs the people of the Cordillera

including: *Charles J. Hughes, Gaia: A Natural Scientist's Ethic of the Future, David Abram, The Perceptual Implications of Gaia, Edward Goldsmith, Ecological Succession: Rehabilitated, Sidney Holt, Let's all go Whaling, Peter Bunyard, World Climate and Tropical Forest Destruction.*

£2.00

Dam Destruction —
The case against Superdams

including: *Edward Goldsmith and Nicholas Hildyard, Large-scale Dams: A special report. James Krohe, Illinois, The US Bread Basket. Warwick Fox, Deep Ecology: A New Philosophy of our time? Henryk Skolimowski, Information—yes, but where has all the wisdom gone.*

£4.00

Africa gets a message

including: *Randall Baker, Protecting the Environment against the Poor. Barbara Dinham and Colin Hines, Can Agribusiness feed Africa? Ellen Grant, Cancer and the Pill. Jose A. Lutzenberger, How Agrochemicals feed the Pests that destroy the Crops. A. Sibatani, Molecular Biology: A Scientific Critique*

£2.00

Subscription Rates, Sample Copies and Back Issues available from The Ecologist, Worthyvale Manor Farm, Camelford, Cornwall.
